SETUP

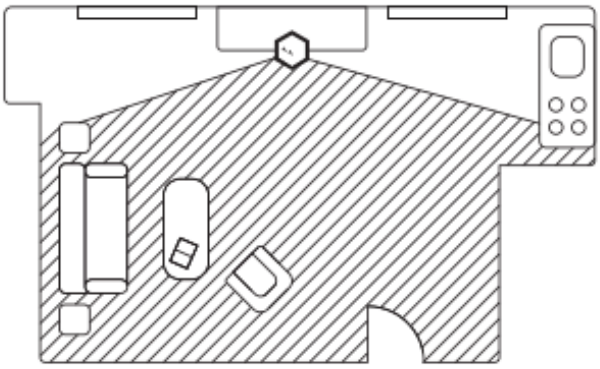

1. Download the Petcube App and register your account.

2. Power up the camera and wait for yellow light to flash.

3. Press the Setup Button at the bottom until you hear
The sound.

4. Follow instructions in the app to finish the setup.

PLACEMENT

It is best to point Petcube Cam in the direction where your pets spend most of their time so their activities are captured with the wide-angle lens.

If placing on a table or a shelf, put Petcube Cam at least 3 feet above the floor. A rubber foot at the bottom provides a firm grip on the surface.

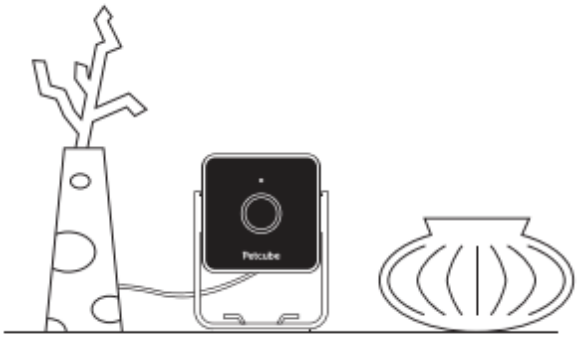

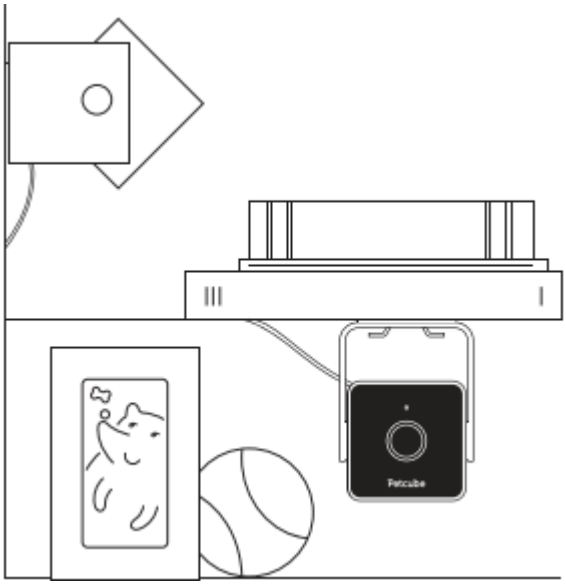

Table of Shelf Top

Petcube Cam has a non-slip rubber bottom, which provides a secure grip on flat surfaces. Camera tilt can be adjusted manually for a better viewing angle. Hooks at the foot allow to fold the cord firmly.

Mounting

The device can be placed on a wall of a shelf bottom. Petcube Cam comes with a metal plate and a mounting tape. Mount the plate in the desired location and the camera foot will magnetically snap to it. It also works with other metallic surfaces.

CONTACT
